

## SCOTCH RESIDENTIAL COMMUNITY GUARDIANSHIP

If you have your son in the Residential Community you are required to provide him with a guardian. The guardian needs to be a responsible adult who will perform a vital role in that they act for you in *loco parentis* when your son is not under the direct control of the School. The selection of a guardian is a parental responsibility and is a condition of your son's enrolment at the School as a boarder.

### Choosing a guardian

Guardianship requires experience similar to that of a parent, therefore your son's guardian should be a responsible adult over the age of 25 years. They can be related to your son or be a family friend.

### Student health and wellbeing

Ensure in the event of illness that your son receives appropriate medical attention and care. When necessary, guardians may be required to take the student home for his period of recovery.

### Mid-term breaks and school holidays

The Residential Community closes during mid-term breaks and school holidays, therefore your son will need to have a place to stay during these periods of time.

### Your son's guardian will:

- Provide a safe environment at their home for your son should he not be able to remain at school due to illness or other school related matters
  - Maintain communication with the School/Boarding House and act for you at Parent/Teacher and Parent/Tutor meetings
  - Inform the School immediately of any changes in their contact details
- If you have any questions or concerns regarding these expectations you can contact the Head of Residential Life at [ResidentialLife.Admin@scotch.wa.edu.au](mailto:ResidentialLife.Admin@scotch.wa.edu.au)

Students Name: \_\_\_\_\_ Year: \_\_\_\_ House: \_\_\_\_\_

Guardian Name: \_\_\_\_\_
